Welcome

This website hosts **The Cnidarians**. A book about... you guessed it, Cnidaria. *The book is currently being written... **IN THE OPEN!*** What does that mean exactly? Well, it means that **you can follow along on this journey** over the coming months and/or years? And hopefully not decades. I've always considered writing a book a daunting task and perhaps a lonely one. This is why I've chosen to write this book *out of the attic*. It's an experiment of mine. I wanted to see if sharing this journey with you, and receiving feedback during the process could make this all a little more fun, and hopefully a fairer representation of Cnidaria!

Preface

This book is in preparation. It will be developed over many years.

Who should read this book

This book is in preparation. It will be developed over many years.

Acknowledgements

This book is in preparation. It will be developed over many years.

Contributors

This book is in preparation. It will be developed over many years.

Introduction

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.
